**Consolidated Plan Listing of Projects**

**Applicant's Name** City of Harrisonburg – Public Works Department

**Priority Need** Public Facilities – Sidewalks

**Project Title** West Bruce St. Sidewalk

**Project Description**

This project will widen and reconstruct the existing sidewalk on the North side of W. Bruce St. from the Blacks Run bridge to S. Main Street. The sidewalk will be widened to 5 feet to meet ADA standards. The project benefits the entire city due to its location as the walkway between the Water Street parking deck and downtown Main Street. The widening of this sidewalk will also restrict this portion of road from two lanes to one, improving safety as traffic crosses Main Street. The existing sidewalk on the South side of Bruce Street will also be reconstructed. This work will match the Brickwork of the new Streetscape design in Downtown Harrisonburg, a portion of which was previously funded by CDBG. This project consists of an approximate total of 440 linear feet of sidewalk on both sides of W. Bruce Street and construction of 2 new ADA ramps. The amount requested for this project is \$27,000.
